DETAILED ACTION

Applicants' response, and a declaration under 37 C. F. R. § 1.131 filed on 10/27/2003 are made of record.

Claims 1-31 are pending.

The Finality of the previous office action, which is an error, is withdrawn.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

In view of applicants' response, 112 rejections made in the previous office action have been deemed as obviated. As for prior art rejections over Hardy et al. US 3,118,887 and Stevenson et al. US 6,242,598 in view of Fritzsche et al. US 1,551,095., applicants have provided a declaration under 37 C. F. R. § 1.131 to antedate the Stevenson et al. Hence, the prior art rejection over Hardy et al. US 3,118,887 and Stevenson et al. US 6,242,598 in view of Fritzsche et al. US 1,551,095, has been deemed as obviated.

The process of making triazine UV absorbers of formula III, with specific Ar₁, Ar₂ of Formula II, R₆, R₇, R₈, R₉, R₁₀ and X groups, using Lewis acid along with a reaction promoter with the proviso that the reaction promoter is different than the solvent and the compound of formula II embraced in the instant claims was not found to be anticipated or rendered obvious by the prior art of record. Additional search in the related art area also did not yield any prior art disclosing a process of making triazine UV absorbers of Formula III using a Lewis acid and a reaction promoter as embraced in the instant

claims. Therefore, the examiner noted that the claims 1-31 would be in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
